

# VBell CP-7

## 7-inch Color IP/SIP Intercom monitor

CP-7 is 7 inch SIP IP video intercom that includes intercom and security in one monitor. It supports VoIP SIP protocol with the shortest voice delay. Build-in Hardware AEC (Acoustic Echo Cancellation) makes voice chatting experience more comfortable. CP-7 looks good and noble by champagne gold color with metal brushed panel. The wall mount in hidden type is easier to install and match with the wall.

Digital IC hardware video codec makes video more smooth. 800 x 480 high density resolution video shows clearer images.

The CP-7 build-in PoE module makes indoor wiring more simple and clean. It also build-in 6DI x 2DO provides home security system. No additional security host control box is required.
